Professional Summary

MERN Stack Developer pursuing a B.Tech in CSE (CGPA 9.11), experienced in building and deploying full-stack applications with React.js, Node.js, Express.js, and MongoDB. Skilled in REST API design, JWT authentication, and data-driven features, with 200+ DSA problems solved.

Technical Skills

Frontend: HTML, CSS, React.js

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Databases: MongoDB, MySQL

Programming: Java, SQL, JavaScript

Core Concepts: DSA, DBMS, OOPS, OS

Tools: Git, GitHub, VS Code, Vercel, Render

Projects

AI-Based Project Roadmap Generator Live Demo

React.js, Node.js, Express.js, MongoDB, JWT, OpenAI API, Vercel, Render

- Built a full-stack MERN platform that converts AI-generated project roadmaps into structured milestones and tasks, using schema-validated prompts and fallback handling for malformed responses.
- Implemented a Kanban board where tasks advance through workflow stages, along with editable roadmaps and progress dashboards for tracking project execution.
- Added JWT authentication and email-based collaboration invites; deployed on Vercel (frontend) and Render (backend), and used to plan and track 3 of my own projects.

Spaced-Repetition Recall Tracker Live Demo

React.js, Node.js, Express.js, MongoDB, JWT, Vercel, Render

- Built a full-stack MERN app implementing the SM-2 algorithm, which adjusts each card's ease factor and review interval based on recall ratings to schedule the next review.
- Designed MongoDB aggregation queries to compute retention rate, category-wise performance, and review-streak analytics for a progress dashboard.
- Implemented JWT authentication and full CRUD for cards and categories; deployed on Vercel (frontend) and Render (backend) and used daily for my own DSA revision.

Experience

MERN Stack Internship May 2026 – July 2026

* Developed full-stack web application features using MongoDB, Express.js, React.js, and Node.js.
* Designed and implemented REST APIs with JWT-based authentication for secure user access.
* Built reusable React components and integrated them with backend APIs to improve UI consistency.

AI and ML Internship June 2025 – July 2025

* Gained hands-on exposure to AI/ML concepts, including model training and deployment workflows.
* Built practical experience with data preprocessing and model evaluation techniques.

Education

Gayatri Vidya Parishad College of Engineering 2023 – 2027

B.Tech – Computer Science and Engineering (CGPA: 9.11 / 10.0)

Sasi Junior College 2021 – 2023

Intermediate – MPC (97.6%)

Geetanjali EM School 2020 – 2021

SSC – (92.17%)

Leadership & Involvement

Competitive Programmer: Solved 200+ problems across platforms including LeetCode and GeeksForGeeks, strengthening skills in Data Structures, Algorithms, and problem-solving.

Class Representative – Rotaract Club: Coordinate between the class and the Rotaract club, relaying communication and ensuring participation in club initiatives and events.
